Of the 19.6 million acres planted in Minnesota in 2011, 17.1 million or 87% were enrolled in crop insurance. Of the insured acreage, 16.3 million were individual buy-up coverage, with 11.5 million (67% of acres; 75% of premiums) with a buy-up level of 75% or greater. Only 452,000 (3%) were in CAT and only 242,000 (1%) were in area plans like GRP or GRIP.

Administrative and Operating Costs

The chart to the left highlights how the cost to the government to administer crop insurance in the state has been drastically cut since 2008, even as total liability within Minnesota has increased (from \$6.2 billion in 2010 to \$9.5 billion in 2011).
